26557124	37063286	85	Practical: Bug in word2vec (with both softmax and negative sampling). Theory: 2.b + 2.c - wrong derivations analysis. 2.h missing results
38847588	201547510	100	
39128871	300995776	87	Practical: a bug in word2vec with negative sampling. Theory: 1. In 2.a + 2.b + 2.c - Missing derivation analysis
43023662	200327914	96	Practical: softmax failed- Forgot to subtract max in the vector case Theory
43362151	304389463	96	Practical : a bug in word2vec with negative sampling. Theory: 1. In 2.c - $J_{neg} = -\text{sigmoid}(u_o, v_c) \dots$ (not $J_{neg} = -\text{sigmoid}(-u_o, v_c) \dots$)
200753341	321031932	94	Practical: softmax failed - bug in the matrix case. Theory: In 2.c: In case $w < 0$, the derivation is 0 for words that are not in the sampled set
200831618	200954675	98	Practical: 1. softmax failed - a bug in the matrix case. 2. a bug in word2vec with negative sampling Theory: glove bonus
200932648	302868898	105	Theory : glove bonus
201325644	203828496	100	
201327988		93	Practical: 1. softmax failed - a bug in the matrix case. 2. a bug in word2vec with negative sampling
203056585	204085948	96	Practical: softmax failed - bug in the matrix case
203711494	312484769	100	
204336747	302764956	97	Practical: a bug in word2vec with negative sampling
206335283	304856529	90	Theory: 2.a + 2.b + 2.c - Missing derivation analysis
